

## UNITECH SCALES AND MEASUREMENTS PVT. LTD.

## Pneumatic / Hydraulic Trainer -Basic Pneumatic Trainer

www.unitechscales.com

## Specification : -

It consists of a basic pneumatics kit components for, FRL unit solenoid valve, cylinder etc. This basic pneumatics kit shall be capable of being used to demonstrate to the design, construction and circuits.

## The basic pneumatic trainer have following characteristics.

- 1. Primary safety circuit.
- 2. Control of Single acting cylinder with different valves.
- 3. Control of Double cylinder using different valves.
- 4. Speed control of both cylinders.
- 5. Sequencing of two double acting cylinders.
- 6. Above with time delay.
- 7. Impact circuit with quick exhaust valve.
- 8. Circuit involving single and double pilot valve.
- 9. Pneumatic Logic circuit AND, OR, NOT.
- 1. And many more.
